LZ 280 G

basicline

LZ 280 G

Technical Data		LZ 280 G
Working range		
Center height	mm	165
Swing over bed	mm	330
Swing over cross-slide	mm	190
Distance between centers in	mm	670
accordace – with DIN 806 – MT 3		
Width of bed	mm	220
Work spindle		
Spindle head DIN 55027 (standard)		size 5
Spindle diameter in front bearings	mm	70
Spindle bore	mm	43
Inner taper similar to DIN 228 (short.)		ME 50
Centering point (DIN 806)		MT 3
Diameter of chuck	mm	160 (200)
Max. diameter of face plates & clamping disks	mm	280
Inside diameter of collet	mm	26
(Draw-in collet system 385 E, 386 E)		20
Inside diameter of collet	mm	42
(Front push-out collet system 173 E)		72
Tool slide	I	
Cross-slid e travel	mm	165
Cross-slide width	mm	140
Upper slide travel	mm	115
Upper slide width	mm	98
Swiveling range of upper slide		+75/-65
Cross-section of tool	degree	
	mm	16 x 16 (20 x 20)
Tailstock with hand wheel	l I	
Tailstock with hand wheel Stroke of quill	mm	85
Tailstock with hand wheel Stroke of quill Diameter of quill	l I	85 45
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228	mm	85
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive	mm mm	85 45 MT 3
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range	mm	85 45 MT 3
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range	mm mm	85 45 MT 3 60-3000 30-3000
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds	mm mm rpm	85 45 MT 3 60-3000 30-3000 18
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity	mm mm	85 45 MT 3 60-3000 30-3000
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system	mm mm rpm	85 45 MT 3 60-3000 30-3000 18 1,9/2,5
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert	mm mm rpm	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories	mm mm rpm	85 45 MT 3 60-3000 30-3000 18 1,9/2,5
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range	mm mm rpm	85 45 MT 3 60-3000 30-3000 18 1,9/2,5 size A (option B)
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds	mm mm rpm	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal)	mm mm rpm rpm	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5 size A (option B) 0,025 – 0,9
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard	mm mm rpm rpm	85 45 MT 3 60-3000 30-3000 18 1,9/2,5 size A (option B)
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert	mm mm rpm rpm kW	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5 size A (option B) 0,025 – 0,9
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert Space required and weight	mm rpm rpm kW	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5 size A (option B) 0,025 – 0,9 0,2 – 14
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert	mm mm rpm rpm kW	85 45 MT 3 60-3000 30-3000 18 1,9/2,5 size A (option B) 0,025-0,9 0,2-14
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert Space required and weight Length x width x height	mm mm rpm rpm kW mm/r mm	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5 size A (option B) 0,025 – 0,9 0,2 – 14 1.540 x 855 x 1450
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert Space required and weight Length x width x height Weight as per version approx.	mm rpm rpm kW	85 45 MT 3 60-3000 30-3000 18 1,9/2,5 size A (option B) 0,025-0,9 0,2-14
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert Space required and weight Length x width x height Weight as per version approx. Standard painting	mm mm rpm rpm kW mm/r mm	85 45 MT 3 60-3000 30-3000 18 1,9/2,5 size A (option B) 0,025-0,9 0,2-14 1.540 x 855 x 1450 1100
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert Space required and weight Length x width x height Weight as per version approx.	mm mm rpm rpm kW mm/r mm	85 45 MT 3 60 – 3000 30 – 3000 18 1,9/2,5 size A (option B) 0,025 – 0,9 0,2 – 14 1.540 x 855 x 1450
Tailstock with hand wheel Stroke of quill Diameter of quill Taper socket DIN 228 Drive Speed range Optional speed range Number of speeds Drive capacity Tool system Basic body with insert AD 2090 = standard accessories Feed range Longitudinal/transversal feeds (= 0.36 from longitudinal) Metric thread pitches with standard change gear insert Space required and weight Length x width x height Weight as per version approx. Standard painting	mm mm rpm rpm kW mm/r mm	85 45 MT 3 60-3000 30-3000 18 1,9/2,5 size A (option B) 0,025-0,9 0,2-14 1.540 x 855 x 1450 1100 light grey

Safety and quality with seal of approval.

Special features:

- Covered leadscrew and feed rod, 9-step gearing and automatic engagement of hand wheel
- · Economic, precise, universal
- Toolmaker accuracy in accordance with, DIN 8605, in conformity with CE, made in Germany

Standard accessories (excerpt)

- · LED machine light, integrated into machine casing
- · Quick-change tool holder size A with insert AD2090
- · Brake system for main drive (spindle brake)
- · Sliding chuck guard with limit switch monitoring
- · Removable chip protection rear wall
- · Movable splash guard
- · Removable chip tray
- · Single bed trip stop
- · Central lubrication
- Set of change gears (number of teeth 21-27-28-33-42-120)
